Invitation to opening event of ATIA's Brazil project

Dear Members,

ATIA has decided to join the Prime Minister in his intentions and efforts in strengthening the economic ties between Aruba and Brazil. In doing we have developed a Brazil program for 2004.

We are organizing two trips to Brazil for the Aruban business community in general and for our membership in particular.

The trips are to:

- Manaus (September 2004): Amazon International Fair II; and
- São Paulo (November 2004): BRASILTEC 2004.

In order to inform you about these trips we have organized two information evenings of which the first will be held on Friday, June 11, 2004 at the Seaport Conference Center, starting at 8:00 PM. We have invited two expert representatives of the organizing committees of the Manaus and São Paulo expos to come to this event and to make presentations to the Aruban business community.

We have invited the Prime Minister to be the opening speaker of this first information evening.

On behalf of the board, I herewith cordially invite you to attend this event. Your presence will be highly appreciated. Please contact our office manager Mrs. Yolanda Fingal at 5827593 or at atiaruba@setarnet.aw and register as soon as possible. Information concerning the expos can be found respectively at www.expoamazonia.com.br and www.brasiltec.com.br.

Sincerely,

Mr. Serge Mansur
President
